School: Central Valley Christian School  
Grade Level: 3rd

Theme/Lesson: any lesson including a Bible story

Your objectives in this lesson:

- a.) to remember the Bible story
  
- b.) to understand the Bible story better

Materials needed:

Idea: Teach your Bible lessons as it talks about a specific Bible story. After discussing the story, themes, and character traits, let the students (or groups of students) write out a play or skit of that story.

Really stress the feelings and emotions that go along with the story. This will help students to remember the story better, but the hope is that the story and emotions will be more real and make more sense.
