Grade Level: 5th grade

Theme/Lesson: Patriarchs of the Bible

Your objectives in this lesson:

- a.) Make the Old Testament stories more real to students

Materials needed: Video/DVD- Walking the Bible

What are the best resources you've found helpful for Bible at your grade level?

Idea: As we study stories of the patriarchs, such as Noah and Abraham, I show a few minutes of the video that correlates with the particular story. I find that with the use of maps and videos of the actual places, my students become more connected to the Bible and the stories become more believable. It takes a 6000 year-old story and makes it more believable and real.
