Why Wellness?

Trustmark's Healthy Foundations program encourages and rewards you for healthy behaviors. It's designed to help you lead a healthier life by helping you take personal responsibility for your health.

Over 50% of health care expenses are caused by lifestyle choices. Lack of exercise, overeating, eating the wrong foods, smoking, and risky activities all can be changed to not only make you healthier, but also to reduce health care expenses. Your health depends a great deal on what you do each day.

As more participants take these three steps and become more aware of factors that affect their health, habits and behavior can change to improve health. This improvement translates into savings for the CSI Insurance Plan. Trustmark has found that money spent on Healthy Foundations saves an even greater amount on health care expenses.
