## Need Support? Contact our Bible Specialist

CSI offers instructional support on features, benefits, and best practices for Bible teachers to make the curriculum content transformational in the lives of students. Selecting the right curriculum materials is the first step, but implementing them for optimal use in your classroom is a whole other process.

Our Bible specialist, Heidi Dean, is available to assist CSI Bible curriculum customers with online and onsite training for our high school Bible and *Walking With God and His People* curriculums.

Heidi has spoken at the CEA Convention, Heartland Christian Schools Christian Educators' Convention, and the Christian Deeper Learning Conference. She writes articles during the school year that cover best practices in Bible instruction, which can be found at [csionline.org/curriculum/bible-educator-training](https://csionline.org/curriculum/bible-educator-training).

For more information, contact Heidi at [hdean@csionline.org](mailto:hdean@csionline.org).

**Heidi Dean**

*"A well-laid scope and sequence takes students through the Old and New Testaments in a memorable, engaging way. I appreciate the age-appropriate lessons and activities that help me connect the grand story of redemption through Old and New Testaments."*

—Heidi Dean,  
CSI Bible specialist,  
about the CSI Bible curriculum

Our Bible curriculum for high school is relevant, scholarly, and rich in reformed worldview. Our curriculum calls students to examine their lives and the role they play in God's kingdom.

### **God's Unfolding Kingdom**

This study of the Old Testament begins by mapping out the "one big story" of the Bible. From there, students learn about the calling of God's people and of God's faithfulness to them as a nation and as individuals.

# Walking With God and His People

## Bible curriculum that brings the Word to life

Christian Schools International's Bible curriculum for **grades preK through 8** provides an excellent and engaging course of study of God's eternal Word.

Comprehensive and user-friendly for both teachers and students, *Walking With God and His People* provides multiple enrichment activities that appeal to a variety of teaching and learning styles. The curriculum focuses on God's story and how it has been revealed to his people. Students learn about themes and biblical characters within the historical context of the Bible. The units build on each other over time, providing learners with insight and information on all of God's Word.

Our curriculum is written by teachers, for teachers. With their help, we've put together a curriculum that is flexible, thoughtful, and steeped in Christian worldview with a reformed perspective.

*Walking With God and His People* is an academic course designed to study the Bible in depth, including instruction on the use of tools such as footnotes, maps, and concordances. Students learn about the Bible itself—its history and structure—as well as its overarching themes and storylines. They learn how to use the Bible appropriately in order to understand God's will and shape their own lives.

## Engage a Child's Whole Being—Heart, Mind, and Soul—In God's Word!

The *NirV Seek and Explore Holy Bible* helps children understand God's Word by utilizing the nine common ways that children learn:

1. Logical reasoning
2. Visualizing
3. Discussing and debating
4. Learning with others using interpersonal skills
5. Reflection or intrapersonal skills
6. Emotional engagement
7. Experimenting and doing
8. Kinesthetics
9. Nature

Children are joined on their journey through the Bible by nine different animal friends who are each designed to help kids use one of the nine different ways of learning. Endearing art of an antelope, monkey, African elephant, meerkat, hippo, tiger, jaguar, panda bear, and zebra guides children from "Base Camp" to the different sites throughout the Bible that lead them through the story of God's people.

### Features include:

- Full-color throughout
- Single-column text
- Four child-friendly Bible maps
- Presentation page
- Full text of the New International Reader's Version (NirV), written at a third-grade reading level for developing readers
- 8.5-point font size

## Need Support? Ask our STEM Education Specialist

Instructional support trainings on features, benefits, and best practices to make curriculum content transformational in the lives of students are offered by CSI.

Selecting the right curriculum materials is the first step, but implementing them for optimal use in your classroom is a whole other process.

Our STEM education specialist, Susan Koppendrayer, is here to help you remain competitive in the field of science education without compromising faith or scholarship. Trainings on our curriculum materials will guide and give you strategies so that your teaching reflects the study of science and is completely compatible with Christian teaching—for by studying science, we learn more about our amazing God and his creation. Susan has spoken at the CEA Convention, Heartland Christian Schools Christian Educators’ Convention, and the Christian Deeper Learning Conference. She writes articles during the school year that cover best practices in science instruction, which can be found at [csionline.org/curriculum/science-educator-training](http://csionline.org/curriculum/science-educator-training).

# Science 2<sup>nd</sup> Edition

Let's find out about God's world!

# Science 2<sup>nd</sup> Edition Grades K–2

Science is how we come to understand God's marvelous creation and the systems put in place by his hand.

CSI's *Science 2<sup>nd</sup> Edition* curriculum is a hands-on program that encourages students to become actively involved in scientific discovery. The concrete, creative learning experiences are based in God's Word and will enrich students' knowledge of creation, affirm their faith in the creator, and enable them to use science to the glory of God.

Our science curriculum is available for kindergarten through middle school. Based on teacher feedback and educational best practices, this curriculum helps students and teachers get the most out of each lesson. The goal is to help students become creative problem solvers and to develop a sense of stewardship for God's creation.

## Textbooks include:

- Readings to reinforce the concepts presented in the classroom
- Colorful photographs, illustrations, graphs, and diagrams
- A glossary of scientific terms (with pronunciation guides)
- Questions to promote recall and synthesis of ideas and concepts
- Sidebars with enrichment information
- For grades 3–9: Colored tabs easily differentiate units, and unit and chapter page numbers appear in the table of contents for quick reference.

## Easy-to-use teacher guides include:

- Flexible options for lessons, activities, and cross-curriculum planning
- Student objectives and project ideas; vocabulary; discover activities; and options for reinforcement, review, and assessment
- A list of contemporary science resources for students and teachers
- Blackline masters for activity sheets as well as tests
